We remind our campus community that consent is required for any type of sexual activity. The definition of Consent means an informed, affirmative, conscious decision by each participant to engage in mutually agreed-upon sexual activity. Consent must be voluntary, and given without coercion, force, threats, or intimidation. Consent can be withdrawn or revoked. Consent cannot be given by a person who is incapacitated. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational judgments. Sexual intercourse with a minor is never consensual when the victim is under 18 years old because the victim is considered incapable of giving legal consent due to age.
