THE CSUF POLICE DEPARTMENT

## ARE YOU PREPARED?

Do you have supplies in your vehicle? How about an emergency plan? Comfort items? Extra clothing?

Most people don't! That's why our Emergency Management Coordinator Sue Fisher wants you to start planning now.

Sue compiled a list of necessary items to have on hand if/when an emergency takes place. Items such as water, food, medical supplies and prescription medication are a few of the items she suggests having.

Each year, Southern California experiences approximately 10,000 earthquakes. The best time to prepare for an emergency is before it happens.
